EXPERIENCE

Data Science Contractor

proquo ai

📅 March 2020

📍 London, UK

- Literature review and POCs for automatic brand taxonomy creation.

Data Science Intern

Signal AI

📅 Aug 2018 – Oct 2018

📍 London, UK

- Worked to bring Data Science insight to empower the Marketing team by creating solutions required to process >1 million documents on a laptop.
- Detecting changes in language in the news. Achieved using a temporally aligned word embedding approach.
- Information Retrieval (IR) problem to generate ranked lists of news stories.

Assistant to London Programme Director

Educational Programmes Abroad

📅 July 2012 – Jan 2019

📍 London, UK

PROJECTS

- Sentiment analysis explainer - work.mitchcwatts.com/#sentiment.
- Matt Damon/Mark Wahlberg image classifier - work.mitchcwatts.com/#damonnet.
- Thunderfit for Raman spectroscopy data analysis - Published on PyPi: pypi.org/project/thunderfit/.
- Other projects such as a chatbot using Facebook's new ParlAI Blender model and more are available at: work.mitchcwatts.com.

EDUCATION

Nanomaterials Physics PhD

UCL

📅 Sep 2015 – Mar 2020

📍 London, UK

Publication: Watts, M. C. *et al.*, Production of Phosphorene Nanoribbons, *Nature*, 568, 216–220 (2019), doi.org/10.1038/s41586-019-1074-x

MPhys Physics

UCL

📅 Sep 2011 – May 2015

📍 London, UK

- Average marks: 85%.
- Received one of 31 Dean's list awards in UCL-wide graduation year (>4000 students).

A (As) Levels

Brentwood County High School

📅 Sep 2009 – May 2011

📍 Brentwood, UK

Physics A*, Maths A, Chemistry A, (Biology A, Further Maths C)

LANGUAGES & PACKAGES

Python (2.5 years)

ABOUT ME

I'm a physicist with a strong academic record, looking to break into a career in machine learning. I'm passionate about data and analysis, with a particular interest in machine learning techniques and NLP specifically. My motivation is demonstrated by having taught myself numerous courses whilst completing a PhD in nanomaterials, as well as undertaking an internship and completing several small projects.

SELF-TAUGHT COURSES

- Coursera - *Machine Learning*.
- Berkley - CS61A (*Python comp-sci course*).
- Fast.AI - *Course V3*.
- Fast.AI - *NLP*.
- O'Reilly - *Hands-On Machine Learning with Scikit-Learn, Keras and TensorFlow, 2nd Edition*.
- Coursera - *DeepLearning.AI (Sequence Models module)*.
- Stanford - *Algorithms: Design and Analysis (partially completed)*.
- MIT/EDX - *Introduction to Probability - The Science of Uncertainty (partially completed)*.

UCLU SOCIETIES

Co-Founder & Treasurer

UCL Brazilian Jiu Jitsu

📅 Nov 2013 – Jun 2015

- Co-founded club, requiring extensive paperwork, fund-raising and organisation.
- Founded a volunteering programme within the society.

Head of Events

UCL Muay Thai Society

📅 Apr 2013 – Aug 2014

- Organised a new competitive event in 2014 for UCL Varsity series.
- Organised international club tour in 2014, including travel and training provisions.
